## Executive Summary

Computer Science graduate with hands-on experience in Fullstack development using React, Next.js, Node.js, Laravel, and MySQL. Experienced in developing RESTful APIs, web applications, and SEO-optimized websites. Possesses additional professional experience in sales and customer-facing roles, strengthening communication, problem-solving, and stakeholder management skills. Passionate about software development and continuously learning new technologies.

## Work Experiences

**Freelance** – Demak, Indonesia

Feb 2022 - Present

- Developed a promotional website using Next.js, React, Tailwind CSS, HTML, CSS, JavaScript.
- Implemented SEO best practices to improve search engine visibility and attract potential customers.
- Enhanced website performance and user experience with responsive design and optimized content.

**Bina Nusantara University** – Semarang

Feb 2025 – Feb 2026

Backend Developer

- Developed and maintained RESTful APIs for internal campus systems using .NET and C#, including backend logic and database integration.
- Collaborated with frontend developers to ensure smooth API integration and proper data communication between systems.
- Conducted application testing, debugging, and troubleshooting to ensure system performance, stability, and reliability.

## Internship & Volunteer Experience

**CV. Gamelan Research Project** – Semarang, Indonesia

Internship

Aug 2020 – Mar 2021

- Developed a web-based game for the Ministry of Education website using C# and Adobe Animate.
- Created a mobile game focused on gamelan digitization using Unity.

**SMK N 8 Semarang (Vocational High School)** – Semarang, Indonesia

Volunteer

Nov 2021 – Dec 2021

- Designed and built the OSIS Chair Election platform using PHP and MySQL, simplifying the voting process for approximately 1,000 students.
- Improved voting system efficiency by reducing manual counting time and ensuring secure, real-time vote tracking.

**Bina Nusantara University** – Semarang, Indonesia

Volunteer

Jul 2023 – Dec 2023

- Contributed to the development of the official website for Kenteng Village, a digital representation of the local government, using the Laravel Framework.
- Collaborated with the local government to ensure the site meets community needs and effectively represents the village online.
- Ensured responsive user interface design and collaborated with the team for efficient integration of village administration features.
